

The Inside Story: engineering the future of food

During the past decade East Anglian-based Lingwood Food Services has developed into a major force in the food processing industry, providing a wide range of equipment from bespoke processing lines to standard solutions, and currently supplies some of the biggest names in the business.

Representing 10 major European manufacturers renowned for their expertise throughout Europe and the World, Lingwood supplies equipment that is equally relevant to farmers and growers through to food manufacturing and processing companies. We are equally comfortable dealing with sole traders, SMEs and major food processing companies and groups.

If you are looking for a complete solution in processing your products in the most efficient and cost effective way and still achieving the highest quality of presentation, Lingwood is the ideal Company to fulfil your requirements.

Customer demonstrations can be arranged at the offices and test facilities in Stowmarket. The demonstration facility also gives customers the added security of knowing that equipment delivered to Lingwood is tested and checked thoroughly prior to despatch so you can be sure the equipment works well and safely from day one.

Lingwood Food Services has one of the most comprehensive online brochures relating to an enormous array of food processing equipment. Visit www.lingwood.net for more details.

If you see something you wish to discuss further, simply contact Lingwood and we will happily arrange for one of the team to visit and discuss how Lingwood can help you. The small, dedicated team of individuals ensures that the customer receives the best service, ideas and advice available within the industry.

The "Lingwood aim" is to offer the same high level of service and support whether it is a major project or a small stand-alone machine. That support continues for the life of the machine with service and spare parts.
