

KWT 16

Weighing table & platform

for the ergonomic mixing,
weighing and filling
of different products.

The **weighing table & platform KWT 16** includes a single head weigher for the ergonomic weighing and filling in conjunction with a GKS packaging machine CP 350 or UP 350.

Different products such as vegetables, fruit, salads, baked goods, raw vegetables, sweets (also non food products) can be weighed, filled and packed in representative bags.

The stainless steel platform is adapted to the height of the packaging machine and is equipped with safety borders and railings. The mixing table with the integrated single head weigher is arranged in ergonomic height and easily accessible by stairs. The large weighing bucket with a 16 liter volume is perfectly suited to weigh all kinds of leaf salads, i.e. Lollo Bionda up to 1 kg. For the product supply we can offer you various solutions (e.g. a stainless steel mobile lifting device).

The standard version includes a verifiable single head weigher as well as a verifiable display. The packaging machine CP 350 or UP 350 thus can easily and functionally be fed and operated from the weigher. The KWT 16 weighing table can perfectly be integrated in all processing lines.

The alignment of the stair access can be designed flexibly and individually with defined height steps according to your requirements. Easy cleaning of the complete stainless steel pedestal as well as the single head weigher is another big benefit of the KWT 16

Optionally the weighing table & platform can be adjusted to different heights for various applications.

Technical information KWT 16

length:	3590 mm
width:	2056 mm
height:	2814 mm
Power	
total power	0,2 kW
voltage	230 V, 1 Ph N/PE
frequency	50 Hz / 60 Hz
Pneumatic	
operating pressure	6 bar

Benefits – at a glance:

Practical weighing table

The mixing table is equipped with a verifiable single head weigher and verifiable display.

Large weighing bucket

The weighing bucket (16 liter volume) with decoupled pneumatic opening cylinder of the outlet shutter is perfectly suited for processing leaf salad, i.e. Lollo Bionda up to 1 kg.

Packaging machine (OPTIONAL) CP 350 PLUS / UP 350

The KWT 16 for the ergonomic weighing and filling in conjunction with the packaging machine CP 350 PLUS or UP 350.

These packaging machines can transform film into a bag by using a specially developed former set. Finally the machines fill and seal the bags representatively. Besides standard pillow bags the machines are able to produce square bottom bags or gusset bags.

With a wide range of packaging sizes, these flexible machines can be used for different packaging requirements.

Product feed with the mobile lifting device (OPTIONAL)

The fully enclosing stainless steel mobile lifting device is ideal for the practical weighing table to be filled. Due to its electronic drive (up and down) the mobile lifting device is equipped with a battery and a charger.

This robust stainless steel mobile lifting device can reach up to 30 cycles per hour.

A practical steering castor with brake ensures a stable stand for the safe loading and unloading.

Effective weighing and packaging!

We develop and manufacture stand alone and special machines as well as complete processing lines. You can optimise your production process with the high quality KWT 16.
